

Team Builders *Plus*

One Organization. *OneTeam.*

FOR IMMEDIATE RELEASE

Habitat for Humanity Partners with Team Builders Plus

Team Builders Plus, a nationally recognized training and development firm based in Cherry Hill, NJ, has joined forces with the Burlington County Habitat for Humanity to create the partnership, *Tools for Teams*. The partnership allows organizations to develop teamwork while building their corporate image, the community, and most of all a home for a family in need.

Tools for Teams allows participants to:

- Learn valuable skills while helping others
- Build the foundation of teamwork while creating a home for a Habitat family
- Improve group dynamics while making the community a better place to live.

Individuals are building more than a house, they are:

- Building a positive public perception of your organization by associating with Habitat for Humanity
- Building morale by demonstrating your company's commitment to the community
- Building visibility, as working on a Habitat house is a community event that draws media attention.

New home construction and “gut rehab” of abandoned homes provide challenging projects that require teamwork, open communication and creative problem solving. Habitat personnel provide work site supervision, equipment and construction materials. Team Builders Plus facilitators help participants to link group dynamics demonstrated in the building process to real-world work experiences.
