

**Team Builders Plus**  
One Organization. *OneTeam.*

**For Immediate Release**

## **Segway to High-Performance Teamwork**

Team Builders Plus, a national leader in Team Development based in Cherry Hill, NJ, has joined forces with I Glide Tours & Rentals, LLC, Aston, PA, to create an exciting new team building program, *Segway to High-Performance Teamwork*. This partnership allows organizations to develop teamwork while having a unique and memorable experience. The program allows participants to build trust, improve communication, and enhance teamwork while riding a Segway® Human Transporter, a high-tech self-balancing transportation device.

Team Builders Plus President, Jeffrey Backal, says, "*Segway to High-Performance Teamwork* is a unique team experience made up of a variety of activities specifically designed for teams, departments, and organizations that want to add more excitement to their team building programs." I Glide personnel provide the Segway® expertise and necessary equipment, while Team Builders Plus facilitates activities that link Segway® experiences to real-world team dynamics and business applications.
