On April 29 eight children from The Boys & Girls Club of Camden County between 9 and 12 years old were the excite drecipients of new bicycles, courtesy of Team Builders Plus and 40 employees from the Virtua-West Jersey Marlton Division of Virtua Health.

Not only did the Virtua employees build bikes and perform a good deed, but they also honed their critical thinking, communication, collaboration and planning skills in physically and mentally challenging exercises. This Wheels for the World event was orchestrated by Team Builders Plus, a global leadership and team development firm based in Cherry Hill.

At the Enterprise Center at Burlington County College in Mount Laurel, Team Builders Plus divided Virtua employees into eight groups and directed them to create team names, compete to earn bicycle parts, negotiatefor remaining parts and present marketing campaigns to promote

their bikes. Success was based on the teams' demonstrated collaboration, effective communication and planning skills, strategic resource allocation and creativity.

service, conservation topics of gathering

By EASTERN REGIONAL HIGH SCHOOL DISTRICT, Voorhees

On May 15 at 7 p.m. in the Eastern Center for the Performing Arts,1401 Laurel Oak Road, Voorhees, visitors will have a chance to learn about both global and local service initiatives, contribute to projects based at Eastern and in the community, hear live entertainment, and listen to water experts show how to conserve water and consume safe water at home.

Visitors will have the chance to win a variety of prizes ranging from raffle baskets to a signed Philadelphia Flyers jersey. They will also learn more about the LifeStraw initiative, in which a simple \$3 donation will purchase and ship a portable straw device that has proven to directly filter contaminants from water. LifeStraw is producedin the United States and is sent to displaced or refugee camps in Africa and Asia (Rotary International coordinates this initiative).

Proceeds from this benefit will be allocated to UNIFAT (Upper Nile Institute for Appropriate Learning), a primary school in northern Uganda (Africa), for the construction of a well and electric pump. This will replace the mere collection of rainwater trickling from the roof into a community barrel.
